

Their Destiny Is Coming

Angelic Upstarts

They can't see it coming
Don't realise he is mad
It's getting so much closer
They could have it yet

The memories still linger
Of a [?] of events
It's still not enough
To make the small minds relent

They still see the future
As seen in his eyes
The eyes of a madman
And a madman still tell lies

Their destiny is coming
See it in their eyes
Their destiny is coming
Still more to despise

Genocide is so magic
No reality, no respect
They can't believe what the reasons
No need for regret

The suffering of millions
Don't earn no respect
They don't need no historians
To tell them the reason why

Building a new future
For a fourth generation life
This still see a future
In that madman's eyes

Their destiny is coming
Tell it in their lies
Their destiny is coming
And it came as no surprise

Their destiny is coming
See it in their eyes
Their destiny is coming
Still more to despise

Their destiny is coming
Tell it in their lies
Their destiny is coming
And it came as no surprise
