

Plenty of Room

Anita Baker

I thought I told you everthing you needed
You needed to know, oh
I thought I gave you everything and then you decided to go, oh
Ohhh, You know I understand
And child I love you with an open hand
When ever you should need me
You know where I am

Cause I got room
Plenty of room
Never lonely again just open my door come on in
Cause I got room plenty of room
You'll never be lonely again just open my door come on in
Cause I got room

Don't you know I love you child where ever
Where ever you rome on your own
Lord knows it gets cold out side and if you
You should want to come home, on home
Ohh, you know I don't lie
Should the world outside make you want to cry
Don't be shy no darling just come on by

Cause I got room
Plenty of room
Never lonely again just open my door come on in
Cause I got room plenty of room
You'll never be lonely again just open my door come on in
Cause I got room

Ohh, Right now would be a good time to find
That you have walked into my room
Any time would be a good time
It ain't never to late baby never to soon
Ain't no better love than me and you
You know that's true oh
So sit down at my table til your spirit is feed
Rest your worries by the fire
Lay your burdens in my bed
