

Liquid

Anna Abreu

I know what you want
Give me just a second of your time
One gilde
And you're mine

Bump and grind, slip and slide
Disco lights
Boy, you will be chasing me
Oh, can't you see?

I will break it down for you
There's so much going on and you're cute

Let me be like liquid on your boby
Like a chill running down your spine
Boy, don't you wanna get me naughty?
'Cause I can handle you just fine

I'll burn you up and start this party
I sneak behind and knock you out
I'll be like liquid on your boby
I'll show you what it's all about

I take what I need
Gotta give me what I want
Seriously
Take the lead

Come, violate my privacy
Feels like it's about to go
Off in here
First class: Oh, dear

I will break it down for you
There's so much going on and you're cute

Let me be like liquid on your boby
Like a chill running down your spine
Boy, don't you wanna get me naughty?
'Cause I can handle you just fine

I'll burn you up and start this party
I sneak behind and knock you out
I'll be like liquid on your boby
I'll show you what it's all about

So, here's the deal
You make me feel
Huge frustration

Now, why don't we
'Cause all we need
Is salvation

Let me be like liquid on your boby
Like a chill running down your spine
Boy, don't you wanna get me naughty?

'Cause I can handle you just fine

I'll burn you up and start this party
I sneak behind and knock you out
I'll be like liquid on your boby
I'll show you what it's all about

Let me be like liquid on your boby
Like a chill running down your spine
Boy, don't you wanna get me naughty?
'Cause I can handle you just fine

I'll burn you up and start this party
I sneak behind and knock you out
I'll be like liquid on your boby
I'll show you what it's all about
