

Autumn Day

Anna Graceman

If this was my last moment
Then baby I'd die happy
'Cause I know that you love me
And really that's all that I need

Oh, the time stands still
When my heart is racing
I can't seem to speak
But if I could, I'd be saying

It's not supposed to be this warm in October
And I'm not supposed to be this scared
But in this moment I'm so glad I can hold ya
Feel so much better with you here

Oh, on this autumn day
I realize my mortality, yeah
Oh, on this autumn day
I realize what you mean to me
Oh, just how much you mean to me

Whenever a storm rages
You wrap me up and give me shelter
And nothing will ever break us
No, not as long as we're together

Oh, the time stands still
When my heart is racing
I can't seem to speak
But if I could, I'd be saying

It's not supposed to be this warm in October
And I'm not supposed to be this scared
But in this moment I'm so glad I can hold ya
Feel so much better with you here

Oh, on this autumn day
I realize my mortality, yeah
Oh, on this autumn day
I realize what you mean to me
Oh, just how much you mean to me

You're my evergreen without a question
This autumn day has got me changing
My everything you are a blessing
Oh, this autumn day has me saying

It's not supposed to be this warm in October
And I'm not supposed to be this scared
But in this moment I'm so glad I can hold ya
Feel so much better with you here

Oh, on this autumn day
I realize my mortality, yeah
Oh, on this autumn day
I realize what you mean to me
Oh, just how much you mean to me
