

Can We Figure It Out

Anna Graceman

Lately, I've been thinking 'bout our past
And how you used to love me
And I'm wondering if you still love me today?
All I'm sayin' is...

If I were standing in the same place as yesterday
Would you love me the same way?
If I were standing in the same place as yesterday
I'd figure it out

I know I've changed and so have you in so many ways
But why can't we stand in the same place

If I were standing in the same place as yesterday
Would you love me the same way?
If I were standing in the same place as yesterday
I'd figure it out

Is it wrong to think that we might be the way we were
Are you still him? Am I still her?
I need to know sooner or later so I can move on with my life
Why is it taking so long baby- to figure out your life?

If I were standing in the same place as yesterday
Would you love me the same way?
If I were standing in the same place as yesterday
I'd figure it out

It is wrong to think that we might be the way we were
Are you still him? Am I still her?
I need to know sooner or later so I can move on with my life
Why is it taking so long baby- to figure out your life?

If I were standing in the same place as yesterday
Would you love me the same way?
If I were standing in the same place as yesterday
I'd figure it out

Can we figure it out?
I need to figure it out
Can we figure it out?
I need to figure it out, can we figure it out?
Can we figure it out?
I need to figure it out
I need to figure it out.
