

# Man on the Moon

Anna Graceman

It's gettin' hazy  
[?] blowin' smoke in my eyes  
[?] gettin' spacey  
Stare at the sun because you love to live blind

And you're feeling so far  
Like you're up with those stars  
That we used to lay under at night  
And I'm callin' you out  
'Cause I can't stand the sound  
Of you tellin' me everything's fine

Baby  
Seems like you wanna be the man on the moon  
I've been waitin'  
Can't you keep tellin' me that you'll be here soon  
Too far away, I need you closer  
I don't need space, just need to hold ya  
Baby  
Seems like you wanna be the man on the moon

[?] impatient  
Don't have the time to sit and wait for you now  
Lost in translation  
Speaking your mind but more like running your mouth

And you're feeling so far  
Like you're up with those stars  
That we used to lay under at night  
And I'm callin' you out  
'Cause I can't stand the sound  
Of you tellin' me everything's fine

Baby  
Seems like you wanna be the man on the moon  
I've been waitin'  
Can't you keep tellin' me that you'll be here soon  
Too far away, I need you closer  
I don't need space, just need to hold ya  
Baby  
Seems like you wanna be the man on the moon

Are you ever comin' down, comin' down, comin' down  
'Cause I just need you now  
Yeah I just need you now  
Are you ever comin' down, comin' down, comin' down  
'Cause I just need you now  
Yeah I just need you now  
Are you ever comin' down, comin' down, comin' down  
'Cause I just need you now  
Yeah I just need you now  
Are you ever comin' down, comin' down, comin' down  
'Cause I just need you now  
Yeah I just need you now

Baby  
Seems like you wanna be the man on the moon

I've been waitin'  
Can't you keep tellin' me that you'll be here soon  
Too far away, I need you closer  
I don't need space, just need to hold ya  
Baby  
Seems like you wanna be the man on the moon
