

# Slip

Anna Graceman

I never knew what to say  
When you came around  
But I couldn't look away  
I was in the clouds

Had my head spinnin'  
From the beginnin'  
I never knew what to say  
And I still don't now

You know I talk when I'm nervous  
I get all lost in your perfect  
You got me obsessing  
And got me confessing

I can't believe I let it slip  
The words just fell out  
They've been waitin' on my lips  
For a while now  
It's just so easy to say  
It's just so easy to feel that way  
It's just so easy to say  
It's just so easy to feel that way

I always knew what to say  
But I bit my tongue  
Whenever you'd walk away  
I wanted to run after you

My head's been spinnin'  
From the beginnin'  
I always knew what to say  
But my timing was wrong

I can't believe I let it slip  
The words just fell out  
They've been waitin' on my lips  
For a while now  
It's just so easy to say  
It's just so easy to feel that way  
It's just so easy to say  
It's just so easy to feel that way  
I can't believe I let it slip  
I can't believe I let it slip

And after I said what had been on my mind  
You told me that you had to catch yourself  
A couple of times

I can't believe I let it slip  
The words just fell out  
They've been waitin' on my lips  
For a while now  
It's just so easy to say  
It's just so easy to feel that way  
It's just so easy to say  
It's just so easy to feel that way

I can't believe I let it slip  
I can't believe I let it slip
