

What We Do

Anna of the North

Something 'bout you baby
You brought the colour back into my life
But I feel like you may be changing
You're not being straight with me lately
Okay, okay

Take my breath away
(Lookin' at you, thinking 'bout her, reminiscing 'bout the night you first k
issed me)
Care for what I say
(Are you even listening? You're not even listening, you're not even)

La-la, la-la, la, if she makes you happy
I don't wanna be in your way
Trying to let you go is killing me, but hey

Look what we we do for love, for love
For love, for love, for love, for love
The things that we do for love, for love
For love, for love

There's no happy endings
You don't always have to make things right
No point in trying to change this
That's just the way it is
It's okay, it's okay

Take my breath away
(Lookin' at you, thinking 'bout her, reminiscing 'bout the night you first k
issed me)
Care for what I say
(Are you even listening? You're not even listening, you're not even)

La-la, la-la, la, if she makes you happy
I don't wanna be in your way
Trying to let you go is killing me, but hey

Look what we we do for love, for love
For love, for love, for love, for love
The things that we do for love, for love
For love, for love

Hope she knows, boy, you're no ordinary guy
Give her everything I always thought was mine
Make her breakfast, you had some practice
Those weekends in Paris, oh, oh

La-la, la-la, la, if she makes you happy
I don't wanna be in your way
Trying to let you go is killing me, but hey

Look what we we do for love, for love
For love, for love, for love, for love
The things that we do for love, for love
For love, for love
(Thinkin' bout her, reminiscing 'bout the night)
Look what we we do for love, for love

For love, for love, for love, for love
The things that we do for love, for love
For love, for love
(No, you're not even listening)
