

When R U Coming Home

Anna of the North

(Hey, hey)

(Hey, hey)

I wonder what you're seeing since you been away
Did you think about me? I thought about you every day
I heard you met somebody new (I heard you met somebody new)
But boy, you know she's not for you (But boy, you know she's not for you)
Nobody knows you like I do
Don't fight it, boy, you know it's true

I can picture you now, easy riding in your car
With your windows down low, wonder if you're near or far
On the road for so long, are you still playing our song?
You are my only one, so when are you coming home?
I can picture you now, easy riding in your car
With your windows down low, wonder if you're near or far
On the road for so long, are you still playing our song?
You are my only one, so when are you coming home?

Did you make it through the ocean, so blue?
Did you dive deeper down to the places I couldn't take you?
I know you met somebody new (I know you met somebody new)
We know you're gonna leave her too (We know you're gonna leave her too)
Nobody knows you like I do
Don't fight it, boy, you know it's true

I can picture you now, easy riding in your car
With your windows down low, wonder if you're near or far
On the road for so long, are you still playing our song?
You are my only one, so when are you coming home?
I can picture you now, easy riding in your car
With your windows down low, wonder if you're near or far
On the road for so long, are you still playing our song?
You are my only one, so when are you coming home?

I wanna be your number one, make me feel alive
I wanna be your number one, make me feel alive

I can picture you now, easy riding in your car
With your windows down low, wonder if you're near or far
On the road for so long, are you still playing our song?
You are my only one, so when are you coming home?

I can be be your number one, make me feel alive
I wanna be your number one, make me feel alive
