

# Ginger

Anna Tsuchiya

You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow  
You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow

It's taken me a while  
To realize  
Just what exactly it's I'm chasing  
I try to say  
You move too fast, you run away  
And all I do is fall back  
I know you think I'm shy  
I realize I'm not exactly what you needed  
I try to speak  
My thoughts too fast, they get away  
Only when around you

Let's get away, far enough  
Get away, yeah, from it  
Let's get away, far enough  
Yeah, you know it now  
Let's get away, far enough  
Get away, yeah, from it  
Yeah, I'll make it work  
'Til you know that you can love me

You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow  
You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow

If fate lets me I'll try  
To understand  
Just what exactly it is I'm facing  
I aim too high  
You move too fast, you're on your away  
And all I do is fall back  
Now I close my eyes  
I don't see why  
I'm not exactly what you needed  
I try to speak  
My thoughts too fast, they get away  
Only when around you

Let's get away, far enough  
Get away, yeah, from it  
Let's get away, far enough  
Yeah, you know it now  
Let's get away, far enough

Get away, yeah, from it  
Yeah, I'll make it work  
'Til you know that you can love me

You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow  
You're my ginger  
You're my fire  
You take me higher, yeah  
Our situation's gonna blow
