

Human Insecticide

Annihilator

Psychotic tendencies have put me here for life
Dreams of smashing little things
Before they ruin my life
Find means capable of smothering a flea
Extermination is their end
Escaping not from me

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide

Creepy black mass
I see one down below
Prepare to strike, act quickly now
Strike the fatal blow
Extinguishing the menace
They will know my name
Destroying these, the lives of waste
Delivered now to pain

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide

Asphyxiate the flame of life
From hatred they will die
Power kept in my control
Their souls are caged with mine

Expelled from life, they cannot hide
I will find them out
Their game's lost, I hunt them down
Their end without a doubt
Psychotic tendencies
My dreams are coming true
My plans are set without repent
I'm tightening the screw

Retaliate
Decapitate
I love to see them bleed
Annihilate
I am human insecticide
