

# No Way Out

## Annihilator

Turned on the television  
What did I see?  
A selfish evil psychopath  
Blackened eyes looking at me

On trial fight for your life  
One big waste of time  
A shot to the head sliced throat  
A stab in the back the crime

Testified, crucified  
There is no way out  
Suicide, suicide  
There is no way out for you

Lies lies manipulation  
Too many stories to keep  
But this time it's bit you in the ass  
You're in too deep

Arrogant, self-loving bitch  
The center of the world  
Into the pits of hell girl

Testified, crucified  
There is no way out  
Suicide, suicide  
There is no way out for you

Blacken the name of your victim  
And drag his name through the mud  
No regret for your actions (no regret)  
And no remorse for the blood (blood)

So tragic we wonder why  
You sentenced a man to die (die)

Pre-meditation  
You tried to cover your tracks  
Without hesitation  
Clean up the scene of attack

Convenient memory loss  
Acting like this is fun  
Can't seem to remember  
What the hell have you done

Testified, crucified  
There is no way out  
Suicide, suicide  
There is no way out for you  
There is no way out for you  
(For you)
