

The Trend

Annihilator

Dress the part, plagiarize
But you can't fake, you can't disguise
Flash in the pan, make believe
Sold your soul, so damn naive

Stealing from a generation
How do you sleep at night?
Disgrace the institution
Just a parasite

En vogue, pretend, follow the trend

Try your best, impersonate
Play your part, masquerade
Fool the young, play them well
Counterfeit shit, is what you sell

En vogue, pretend, follow jump on the trend

Hey man I think they're having a sale down at hot topic let's go!

We bring it back, is what they say
True to the core, so what were you yesterday?
False pretense, corporate lie
Ride your wave, and watch it die
