

Weapon X

Annihilator

Use me and abuse me kick me when I'm down
You think the damage is down
But I'm harder and faster than ever before
With a punch that's second to none
Bring on the challenger and bring me your best
Cause you're never gonna let me be
Give me what you got and try to put me to rest
But you'll never, never, ever stop me

Weapon X

Reeking of intensity, burning up inside of me
A mega-force to explode
Like a time bomb, ticking in the heat
So you better re-arm and re-load
Screaming, steaming like a battering ram
This punishment is here to stay
There will be no deviation from the masterplan
So get out of my way

Weapon X

Stalking, creeping, I'm ready for your ambush
You'll never throw me off of the track
Pounding, forging, you better hear my warning
Annihilator is always back

Weapon X
