

# In the Sand

Anouk

So many times I've cried  
When dark clouds block the sunlight  
And it's raining in my heart  
I'll keep my head up high

So little time to try  
To find out 'bout the feeling  
That's deep inside of you  
And keeps the dream alive

So remember  
When you're down and out  
In the sand

So many minds are torn  
By overloading senses  
You're breathing in and out  
No second left to sigh

Can you tell me why  
Nobody will tell me  
What they're feeling deep inside  
We're all just telling lies

Every time you wonder  
Why the feeling lingers  
And it's stuck inside your soul  
You're crying when you smile

So remember  
When you're down and out  
When you're stuck in the middle  
When you can't solve the riddle  
Lay it down in the sand  
When you can't help but shiver  
Get your finger off the trigger  
Lay it down in the sand

Get it out your head  
Out of your hands  
Lay it down in the sand

So remember  
When you're down and out  
When you're stuck in the middle  
When you can't solve the riddle  
Lay it down in the sand  
When you can't help but shiver  
Get your finger off the trigger  
Lay it down in the sand

Get it out your head  
Out of your hands  
Lay it down  
In the sand
