

Fight Forever

Anthem Lights

There's a war we're fighting
On the front line for our King
It's a battle for our souls
Against a heartless enemy

Let us rise soldiers
United by the call
We give nothing less than all
We might stumble, we might fall

But we won't raise that white flag
We won't run or turn back
We will hold on and never surrender
We'll be strong and courageous
'Cause nothing can break us
We'll fight for the King of Forever. Forever.

So let us join with the angels on the battlefield tonight
There's no line between the nations
When you're on the winning side

From the left to the right
From the black to the white
From the south to the north
From the rich to the poor
We are one voice, one force

But we won't raise that white flag
We won't run or turn back
We will hold on and never surrender
We'll be strong and courageous
Cause nothing can break us
We'll fight for the King of forever, forever

Our King has won the war
He reigns forevermore
Alleluia, Alleluia

Our King has won the war
He reigns forevermore
Alleluia, Alleluia

Our King has won the war
He reigns forevermore
Alleluia, Alleluia

We won't raise that white flag
We won't run or turn back
We will hold on and never surrender
We'll be strong and courageous
Cause nothing can break us
We'll fight for the King of forever, forever

Our King has won the war
He reigns forevermore
Alleluia, Alleluia

Our King has won the war
He reigns forevermore
Alleluia, Alleluia

Our King has won the war
He reigns forevermore
Alleluia, Alleluia
