

# Keep You Close

Anthem Lights

I don't wanna  
Waste another minute on this  
Indecision  
It's so clear to me now  
So much thinking  
Had blurred my vision  
And fogged up my mind  
No more confusion  
It's so clear to me now  
So I'm done hesitating

It's amazing how all the places you could be  
You somehow ended up with me  
And everywhere that I might go  
I just wanna keep you close  
Yeah, I just wanna keep you close

So let's go driving  
No destination  
We'll draw our own map  
See what we find  
It could be so easy

It's amazing how all the places you could be  
You somehow ended up with me  
And everywhere that I might go  
I just wanna keep you close  
Yeah, I just wanna keep you close

Baby, we should probably try to take this slow  
But it, it's just so hard to not let go of all control

It's amazing how all the places you could be  
You somehow ended up with me  
And everywhere that I might go  
I just wanna keep you close  
Yeah, I just wanna keep you close  
I just wanna keep you close
