

Live This Day

Anthem Lights

The second hand moves a little bit slower
On a chilly night in late October
Snuggled up counting stars
Dreaming 'bout a trip to Mars
You fell asleep on my shoulder

These are the moments we'll never forget
Making the future we see in our heads
Pictures and stories we tell to our kids

Live this day with me
Share this memory
'Cause life moves so quickly
Just breathe
And live this day with me

Tears from the joke that you told last night
Hear it before but I still laugh like it's the first time
Every single time

Laundry on the floor that we still haven't done
Beautiful as ever with your hair in a bun
This is pure, this is bliss
This is simple happiness
This is everything I didn't know I missed
So baby just

Live this day with me
Share this memory
'Cause life moves so quickly
Just breathe
And live this day with me
