

# Top Of The World

## Anthem Lights

Tell me we don't have to leave  
Say we can stay forever  
That we can always be  
Just me and you together  
Cause this moment is all that I want  
Woah

Tell me how it used to be  
And let me make it better  
Cause baby you and me  
We'll fly above the weather  
Where we're going, there's no holding on  
No

Let my eyes be your sunrise here

Standing on top of the world  
Hands up in the air feeling so alive  
Oh  
Screaming at the top of our lungs  
To the rhythm of our heartbeat beating tonight  
We go  
Oooh standing on top of the world [x3]

So this is what it feels like  
Living this life in color  
Say bye to black and white  
You let me change it over  
Now I see there's no going back  
No

Finally I understand  
What feeling's supposed to feel like  
And when I got your hand  
I've never been so high  
All I need is all that you have  
Oh

Your eyes are my sunrise here

Standing on top of the world  
Hands up in the air feeling so alive  
Oh  
Screaming at the top of our lungs  
To the rhythm of our heartbeat beating tonight  
We go  
Oooh standing on top of the world [x3]

And from way up here our problem seems so small  
So baby have no fear we'll fly above it all

Standing on top of the world  
Hands up in the air feeling so alive  
Oh  
Screaming at the top of our lungs  
To the rhythm of our heartbeat beating tonight  
We go

Oooh standing on top of the world [x6]
