

Steel Brigade

Anthenora

On with the fire, stand by my side
No one can stop our ride
On the battlefield simply a hurricane
That nothing stops, gun or barricade

The guardians of the flame
One aim and just one faith

We're the steel brigade

We're the best, we never hesitate
Don't know defeat, 'cause we fight for faith
There's no doubt, no after or before
Our Lord is right, we don't need more

The guardians of the flame
One aim and just one faith

We're the steel brigade

We don't know the reason of war
Never mind our lord knows!
We are nothing, if not with him
We are the arm, he's the soul that thinks

The guardians of the flame
One aim and just one faith

We're the steel brigade
