

# Miracle Of Love

Anthony B

Greetings give thanks for life  
Give thanks for the people of the world  
My Lord, my Lord, my Lord

How many souls you're trying to hide  
In a world of elusion that's covering your mind  
Rasta show you something good, brothers in the wood  
When you open your mind, you discover the sign  
That there's something you're longing to find

It's the miracle of love, that's take away your pain  
It's the miracle of love, when it comes your way again

Who is the night that covers up your fear  
Tender is the one that wipes away your tear  
There must be no humanity, why people act so viciously  
They say the greatest power can hurt the most dangerously  
Brothers in the woods, Rasta show you something good  
When you open your heart, you can make the new start  
When your crumbling world falls apart

It's the miracle of love, that's take away your pain  
It's the miracle of love, when it comes your way again

Teach them, miracle, miracle, miracle, miracle  
As I say, brothers in the wood  
Rasta show you something good  
When you open your mind you discover the sign  
That there's something you're longing to find

It's the miracle of love, that's take away your pain  
It's the miracle of love, when it comes your way again
