

Real Magic

Anthony Green

Every single person you see
Feels the same dumb pain
And everybody gets imprisoned
With overwhelming shame

Relax
With it
Breathe out

Every day there's something tragic
That helps somebody see

There's real magic
It's so real
It's real magic
It's so real

We all want to be important but are always filled with dread
We can't get outside the borders that are made up in our head

Relax
With it
Lay back

Then you say you can relate to it
And I know just what it means

It's real magic
It's so real
It's real magic
It's so real

It's real magic
It's so real

It's so real
