

# Life Has a Way

Anthony Hamilton

Take a look over your shoulder  
Wise words get much older  
Life has a way of humbling you down  
Thought you already knew it  
Took a turn then you blew it  
Life has a way of humbling you down

So I think I already know every thing  
So I think there ain't room to grow everything  
Life humbles you down

As I stare at the ceiling  
In an abandoned building  
Life had a way of knocking me around  
And my children still look up to me  
While their stomachs on empty  
Oh I need an angel to fall on me now

So I thought I already know every thing  
So I thought there wasn't room to grow everything  
Oh Life humbles you down  
Humbles you down  
Oh life has a way of humbling you down  
Humbles you down  
Oh life has a way of humbling you down

Just when I though that I knew  
Oh just when I thought I knew it all,  
Oh I thought I knew it all  
There was a lesson in store  
There was a lesson in store for me  
Changed my whole world now I know  
Changed my world, now I know, I know  
I don't know it all

There's always room left to grow  
There's always room left to grow  
There's always room left to grow
