My First Love

Anthony Hamilton

Now we've been through too much together And that's separate us from the rest Now we are approaching up on stormy weather Let's see what our love is made of

I hate you were crying last night Said I should've been by your side Girl, please, don't you leave me And, girl, don't you say goodbye

Now, we've been through too much together And we're approaching stormy weather But girl, you're my first love And no matter what the people say I'm gonna love you anyway Girl, you're my first love

Boy, I swear I think you're sacred And I'm so thankful that you're live If I could take back all of the sorrow Then I'd, I'd replace it with a kids

You're the air that I breathe
The perfect one for me
And baby I, I refuse to let you go
And I refuse to let you leave

Now, we've been through too much together And we're approaching stormy weather But boy, you're my first love And no matter what the people Say I'm gonna love you anyway Boy, you're my first love

Now, we've been through too much together And we're approaching stormy weather You're my first love
No matter what the people say (no matter)
I'm gonna love you anyway
You're my first love
My first love

I will not let you go away I will not let you go away I will not let you go away I will not let you go away

You're my first love You're my first love You're my baby You're my baby

I love you My first love
