How much does an opinion weigh  
Does it really matter what I say  
I can't be responsible  
Be yourself or be a tool

Who cares what you expect  
What is politically correct?  
All my ideas are in bad taste  
Get off my case and...

Judge yourself  
No one else

I don't intend to offend  
I just offend with my intent  
Beauty's in the beholder's eye  
I just like the ugly side

Who cares what you expect  
What is politically correct?  
All my ideas are in bad taste  
Get off my case and...

Judge yourself  
No one else

See things the way I do  
Walk a mile in my shoes  
Don't assume and damn it, don't praise me  
My thoughts would drive you crazy  
See things the way I do  
Walk a mile in my shoes  
Don't assume and damn it, don't praise me  
My thoughts would drive you crazy

Kill someone, save a life  
Don't do drugs, drink all night  
Worship Jesus, praise Satan  
Opinions are all contradiction

It's not a case of wrong and right  
You may hate what i like  
Vice versa it's the same  
Just do it, no pain no gain

Who cares what you expect  
What is politically correct?  
All my ideas are in bad taste  
Get off my case and...

Judge yourself  
No one else

See things the way I do  
Walk a mile in my shoes  
Don't assume and damn it, don't praise me
