What Doesn't Die

First in last out overthrown It's been picked clean to the bone And so hard to remember things Like when we used to kill our kings Crusading for hypocrisy Under our nose the holy bleed Crumbling under its own weight Apologies if you relate 'Cause

You, cannot kill What doesn't die! Live up to my promise My full potentional realized

Death lives right inside your pocket Take him out and have a laugh Go and piss your life away Another ugly waste of clay And up above there's no one home Why don't you answer your phone?

Reminding me to learn that poem First in last out overthrown Because

You, cannot kill What doesn't die! Live up to my promise My full potentional realized

You, cannot kill What doesn't die! Live up to my promise My full potentional realized

A stream of consciousness flows into a river of blood Stem this tide of violence As it rises like a flood

(solo)

A stream of consciousness flows into a river of blood Stem this tide of violence As it rises like a flood

A stream of consciousness flows into a river of blood Stem this tide of violence As it rises like a flood

A stream of consciousness flows into a river of blood

What doesn't die!

Stem this tide of violence As it rises like a flood

Anthrax

A stream of consciousness flows into a river of blood What doesn't die! Stem this tide of violence As it rises like a flood You, cannot kill What doesn't die! Live up to my promise My full potentional realized You, cannot kill What doesn't die! Live up to my promise My full potentional realized
