

Chocolate Soldiers

Anti-Nowhere League

We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers

Well do you like to rumble?
Or do you like to ball
Spew your meat out onto the street
Do you want it all?
You're crying out like babies
You're gonna wake the dead
One man dreams, another man schemes
You're fucking up my head
These pills are making me hazy
This fucking world has gone crazy
Jesus Christ ain't gonna save me...yeah
Sometimes nothing can please me
Sometimes nothing comes easy
Don't let the bastards tease you yeah
I can feel we're all together
Well I can feel we're all together
Well I can feel we're all together

We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers

Do you like the good times, or do you want it all?
You get some scag, right out of your head
You're shooting up it all
You're screaming out like crazy...you wanna wake the dead
You grab your case, get out of my face
You're fucking up my head
These pills are making me hazy
This fucking world has gone crazy
Jesus Christ ain't gonna save me...yeah
Sometimes nothing can please me
Sometimes nothing comes easy
Don't let the bastards tease you yeah
I can feel we're all together
Well I can feel we're all together
Well I can feel we're all together

We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down

We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers

Do you like the feeling when you're getting high
Do you run with a gang when you want to bang
Hey why don't you try
You're shooting up and maybe...you're gonna wake the dead
Well get out of line just one more time
You're fucking up my head
These pills are making me hazy
This fucking world has gone crazy
Jesus Christ ain't gonna save me...yeah
Sometimes nothing can please me
Sometimes nothing comes easy
Don't let the bastards tease you yeah
I can feel we're all together
Well I can feel we're all together
Well I can feel we're all together

We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
We all fall down, we all fall down
We all fall down like chocolate soldiers
