

Get Ready

Anti-Nowhere League

We'll shout it out just all across the nation
We don't need your fucking education
Sick and tired of your vile population
Your mother don't like your chronic generation

Get ready for the beat tonight
Get ready with the dynamite
Get ready for this infestation, population boom
Get ready with the beast tonight
Get ready for the fight tonight
Get ready for the holocaust and kiss your arse goodbye
...Bang Bang you're dead

You're looking out for a lot of penetration
But all you get is fucking aggravation
Banging out kids ain't an occupation
Your mother don't like mass sterilisation

Get ready for the beat tonight
Get ready with the dynamite
Get ready for this infestation, population boom
Get ready with the beast tonight
Get ready for the fight tonight
Get ready for this holocaust and kiss your arse goodbye
...Bang Bang you're dead

You're too young for civilisation
You only need for masturbation
You don't need your poxy vaccination
Your mother don't like mass fornication

Get ready for the beat tonight
Get ready with the dynamite
Get ready for this infestation, population boom
Get ready with the beast tonight
Get ready for the fight tonight
Get ready for the holocaust and kiss your arse goodbye
...Bang Bang you're dead

Get ready for the beat tonight
Get ready with the dynamite
Get ready for this infestation, population boom
Get ready with the beast tonight
Get ready for the fight tonight
