

Short, Sharp, Shock

Anti-Nowhere League

When I went to school my teachers hated me
Putting me down with every opportunity
I didn't understand why I would always get it wrong
Why they got the pleasure out of beating one so young

Hauled out the classroom for wearing coloured socks
Then punched across the playground by a physcopathic yob
School days for me was a cane across my back
Detentions and exemptions with my knuckles wrapped

We will bend you... we will take you
We will mend you... we will break you
We will cage you... we will keep you
We will beat you... we will rape you

Told that I was useless and waste of space
To bully me daily put a smile upon their face
Handing out the punishment time and time again
They used the cane more often than the pen

We will bend you... we will take you
We will mend you... we will break you
We will cage you... we will keep you
We will beat you... we will rape you

Rejected by a system I didn't understand
I learnt to cheat and fight and get the upper hand
Then uncover of the night behind the cycle shed
That bastard bully teacher... I made him squeal just like a pig
.

We will bend you... we will take you
We will mend you... we will break you
We will cage you... we will keep you
We will beat you... we will rape you

The boy who needs a short sharp shock
