

No Government

Anti-Pasti

You're paying for your majesty
She's having fun
She don't join the army
And she don't get a gun
You're paying for your civies
Now what are they for?
They never count the killings
Hiroshima '84
Brew your own it's about to ferment
No Maggie Thatcher and No Government
You're paying for your majesty
She's having fun
She don't join the army
And she don't get a gun
You're paying for your civies
Now what are they for?
They never count the killings
Hiroshima '84
Brew your own it's about to ferment
No Maggie Thatcher and No Government□
