

# Right Now

Anuheia

Yeah, oh

I know I said that  
We should take our time  
'Cause there no rush  
But I can't get you off my mind

I can't wait much longer  
Ain't getting much stronger  
Can't wait much longer

I need it all right now  
Right now, right now  
I need it all right now  
Right now, right now  
I need it all right now

You got me on level 10  
Turn me up, don't turn me down baby  
Feeling you, I can't pretend, oh  
Is it love or am I just crazy  
It's a feeling that I can't shake  
This is something that I can't fake  
But you stay... on my mind  
Lately I've been thinking bout us  
In our zone, nobody else just you and I

I can't wait much longer  
Ain't getting much stronger  
Can't wait much longer

I need it all right now  
Right now, right now  
I need it all right now  
Right now, right now  
I need it all right now

Say you want me to  
Say you, say you want me to  
Say you want me to  
Say you, say you want me to, to  
Say you want me to  
Say you, say you want me to  
Say you want me to  
Say you, say you want me to, to

I need it all right now, right now  
Right now, right now, right now  
I need it all right now, right now  
Right now, right now, right now  
I need it all right now

Turn me up, don't turn me down  
Right now, right now  
'Cause I need it all right now  
I need it all right now

Turn me up, don't turn me, yeah  
Right now, right now  
'Cause I need it all right now  
I need it all right now

Turn me up, don't turn me down  
'Cause I need it all right now  
Turn me up, don't turn me, yeah  
'Cause I need it all right now
