

Don't Tell Me

Anvil

Don't tell me
Don't tell me fake news
Don't tell me

No truth abuse

Watching the TV set and what they have to say
Looking for the truth they try to convey
When you do the research, appalled to what you find
Nothing but a pack of lies, a quandry for your mind
Hypocrites and contradiction, so much there to see
Listen to the talking head, the words of spewed debris
Go to a place of worship and hear what was said
Religion won't save you if you are dead

Don't tell me
Don't tell me fake news
Don't tell me
No truth abuse

Fact or fiction as we learn to find the truth
The evidence won't show us when there is no proof
Life from other planets, the mystery of what they are
Forbidden and secret, wish upon a star
Going on what you are told and what some people say
Mob mentality looks for victims on which to prey

Don't tell me
Don't tell me fake news
Don't tell me
No truth abuse

Ignorance, indoctrination, simple to apply
When we're constantly told an outright lie
Hypocrites and contradiction, so much there to see
Listen to the talking head, the words of spewed debris
Go to a place of worship and hear what was said
Religion is the reason why hatred is spread

Don't tell me
Don't tell me fake news
Don't tell me
No truth abuse
