

Turn It Up

Anvil

Turn it up
Turn it up

Make it loud so we all can hear
Yell it loud when you start to cheer
Don't tell me that I can't relate to you, to you

Turn it up
Turn it up
Turn it up
Turn it up
Turn it up

Show support and that you care
Clench your fist and punch the air
Don't tell me that I can't get through to you

Turn it up
Turn it up

On eleven we're all in Heaven
When it's loud we're feeling proud
With the power the weak will cower
Hear the sound shake the ground
It's the drive that makes you feel alive

Turn it up
Turn it up

Give it all without a fear
I want to hear you loud and clear
Don't tell me I can't relate to you

Turn it up
Turn it up

On eleven we're all in heaven
When it's loud we're feeling proud
With the power the weak will cower
Hear the sound shake the ground
It's the drive that makes you feel alive

Turn it up
Turn it up
Turn it up

Give it volume so we can hear
Yell it hard when you cheer

Turn it up with your pride
Turn it up the children cried
Turn it up, turn it up, turn it up

Stand on your feet and show you care
Clench your fist and punch the air

Turn it up, never to fall

Turn it up said one said all

On eleven we're in heaven

No hearing aid, don't be afraid

To turn it up loud...
