

Warming Up

Anvil

Off your ass and do it right
Got to be on point tonight
Get out the kinks and get in gear

Possess the power with no fear
Feel the wind in your sail
Hear the guitars start to wail
Drummer plays the fancy beat
Get you on your lazy feet

Warming up
Warming up
Warming up to you
Warming up
Warming up
Warming up to you

Light the fire, burn it hot
Show me what you really got
Best get on your dawning shoes
This is what you have to do
Feel the music in your soul
Soothing sound of rock and roll
Get yourself just feeling right
Give it all with all your might

Warming up
Warming up
Warming up to you

Warming up
Warming up
Warming up to you

Off your ass and do it quick
Be in shape, that's the trick
Be the best you can be
Be the best for all to see
Soaked skin, sweat does pour
Get you ready to do more
The desire to live by
Is the key to get you high

Warming up
Warming up
Warming up to you

Warming up
Warming up
Warming up to you

Warming up
Warming up
Warming up
Warming up
Warming up to you
