

There's nothing left of me
There's nothing left for you
We're stealing time, 'cause its easy stop them
You've got the best of me
i've seen the worst of you
I'm crazy now, but my mind is fighting
Maybe i'll think of you
Maybe your sick of me
The days and the nights and the rest of your life, then
There's nothing left for you
I'm kinda reeling too
But you and me isn't all I believe
Cause i'm

Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
(How or Why)

I'm not the all of you
You not the rest of me
I feel it seems by the hour and the life time
As I look down at you
As you look up at me
We're free at beings, doesn't everybody dream
There's nothing left for you
There's nothing here for me
But you and me isn't all I believe
Cause i'm

Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
(How or Why)

I believe I can breath, I believe I can breath
I am a supernaturally me, Though it seems
There's a fire in my soul
I don't need to be fighting , just be, just be
A lady in black why you never turned back
She said

Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
Supernaturally I am, inconceivably breathing
Unbelievably feeling, how or why
(How or Why)
