

Life Goes On

April Wine

When the mornin' comes and I feel a little heartache
When the mornin' comes
I'll hold my breath, get my game-face on
And face the world, life goes on

It's a change of reason, a bad time of the season
A-take a good look around
For that time and place, yeah I've made mistakes
But as far as we go we'll move on

That's the way I am, I can take it with a grin
That's a good place to start
I recognize the things, all the things I've missed
That's another story for another time
Life goes on
