

The Miracle

Aquaria

Alone in this dark place
They came to take my soul
My both hands were tied hard
I felt them getting cold

I can't control my feelings
I see more than I want
I'm young but also old

Alone in this dark place
They want to take my soul
I pray for every god i know
But no one seems to show

I can't control my visions
I swear it's not my way
Runaway!
This price I cannot pay!

Millions inside of you!
See the magic in front of your eyes!
Forces around you!
See the miracle in front of your eyes!

Now that I'm much stronger
Feel the strength inside my heart
I can control my feelings
I'll make a brand new start

Voices now are guiding me
And I lead us into light
Follow me!
Come with me!

Millions inside of you!
See the magic in front of your eyes!
Forces around you!
See the miracle in front of your eyes!

Along with my own people
So beautiful and bright
We can resist for one life but
We can't resist the "end of times"

Through the rocks I see the future
And its fate is made of stone
Don't go away!
You must stay!

Millions inside of you!
See the magic in front of your eyes!
Forces around you!
See the miracle in front of your eyes!

Millions inside of you!
Missions you cannot deny
Voices embrace you

Now you must see the way
Hear the will of the Skies

See the miracle in front of your eyes!
