

Mad Sounds

Arctic Monkeys

Mad sounds in your ears
Make you feel alright
They'll bring you back to life
Mad sounds in your ears
Make you get up and down, make you get up

Love I'll never stray on those wild nights
Run but you can not escape
Make you get up and down, make you get up
All night long and reappear to make up and down
Yeah they make you get up

Some days we go to watch you
We just don't feel how we want to (?)
You shouldn't try some times
But you just can't figure out what went wrong
But out of nowhere, somebody comes and hits with a uh la la la

Uh la la la
Uh la la la, uh
Uh la la la
Uh la la la
Uh la la la, uh

You got mad sounds in your ear
So make you feel overwhelmed
Mad sounds in your ear
To make overwhelmed
Make you get over
