

# If You Need My Love Tonight

Aretha Franklin

You look at me when we're here together  
And I can hardly breathe  
Your love hidden in your eyes  
Is all I'll ever need  
I'll give anything to know  
If you'd only let it show

If you need my love tonight  
Don't be afraid just follow your heart  
I'll be there  
And your lonely nights are gone  
If you need my love tonight  
Don't be afraid just follow your heart  
I'll be there

And your lonely nights are gone  
Long gone

So many times I've waited in the shadows  
For you to come to me  
Two hearts hiding from the night  
I need you here with me  
I'd give you everything you know  
If you'd only let it show
