

Bona Fide

Ari Hest

Fly to me little bird, you're the one and only cure
Were gonna have a good time, true and pure
Can you take me there again, to the valley of pretend
Cause when I go there with you I'm reassured

On the morning that you came, far and wide they heard your name
Every corner of the world bird was your domain
Now we're making conversation, words are on your mind
Please don't hurry growing up bird, play your games

You're gonna be the good kind, the motivating sunshine
You're gonna be a remedy of heart and mind, darling you're a bona fide

And should trouble find a way, to bring a riddle to your day
Don't forget the one rule that makes it all ok
Darling nothing is forever, easy come and go
There ain't a thing you couldn't get through, always know

You're gonna be the good kind, the motivating sunshine
You're gonna be a remedy of heart and mind, darling you're a bona fide

You're gonna greet the world humble and dignified
Oh a joy to be around and a friend to walk beside
The bright, warm, rejuvenating sunshine
You're gonna be a remedy of heart and mind
Darling you're a bona fide
