

Braving Goodbye

Ari Hest

Invitations
To take all that you wanted
Rewarded impatience
Nobody prepared you
For braving goodbye
Braving goodbye

Taken care of
Shown exams beforehand
Unaware that
None of it would help you
When braving goodbye
Braving goodbye

Now you wish you put the time in
Wondering who is next to blame

Exploration
Of what you're really made of
Startling observations
Forcing you to deal with
Braving goodbye
Braving goodbye

No one to guide you, to save you when you stumble
Only faith in your actions from here

And all around you
You begin to notice
Excuses, illusions
For nobody's a master
Of braving goodbye
Braving goodbye
Braving goodbye
Braving goodbye
