

Here to Be Forgotten

Ari Hest

The day won't quit
Changing rhythm
Pushed and pulled
Holding tight
See another world
With each blinking of our eyes

Keeping up
Ain't a given
Find the work
For more work to find
Beat the odds
Only to survive, survive

Will we get lost
Here to be forgotten
Will we get lost
The noise we're caught in
Climbing up but never see the top

And here they come
Free and easy
They'll take a dime
For dollar pay
And we gather round
Reminiscing bout the day, oh the day

Will we get lost
Here to be forgotten
Will we get lost
The noise we're caught in
Man I'm feeling lost
Trying to find the meaning

If I look down
I see the years
Built on one another
To get me here
And I don't care anymore
And you don't care anymore
Which way we make it there
Got no more time to spare
Just don't care
