

Something to Look Forward To

Ari Hest

Don't have to go too far
Don't have to make it last
Don't have to change my world
Don't have to hide my past
All it is I'm wishing you would do
Is gimme something to look forward to

Don't have to shine the sun
Any brighter than before
Don't have to bring the one
Right up to my front door
All it is I'm wishing you would do
Is gimme something to look forward to

Cause oh I've been so lonely
Sitting here and waiting for a moment to come upon me
Take my breath away
And though I know that it won't find me
Right here where I lay
I'm still pretending that it may

But you don't have to give me much
Just a little taste
Gimme just enough
To put a smile on my face
That's the only thing that I will ask of you
Gimme something to look forward to
That's the only thing I'm wishing you would do
Gimme something to look forward to
