

shut up

Ariana Grande

My presence sweet and my aura bright
Diamonds cover my appetite
Guess it fuckin' just clicked one night
All them demons helped me see shit differently
So don't be sad for me

How you be spending your time? (How?)
How you be using your time? (How?)
You be so worried 'bout mine (Mine)
Can't even get yourself none
You know you sound so dumb (So dumb, so dumb)
You know you sound so dumb (So dumb)

So maybe you should shut up, mmm
Yeah, maybe you should shut up
Said if only you would shut up (Mmm)
Yeah, that's right, you should shut up (Ah)

I vibrate high and my circle lit
We ain't really with drugs and shit
Led the game so I ain't never miss
Keep opinions muted for the hell of it
'Cause I like my shit (Mmm, yep)

How you be spending your time? (How?)
How you be using your time? (How?)
You be so worried 'bout mine (Mine)
Can't even get yourself none
You know you sound so dumb (So dumb, so dumb)
You know you sound so dumb (So dumb)

So maybe you should shut up, mmm
Yeah, maybe you should shut up
Said if only you would shut up (Mmm)
Yeah, that's right, you should shut up (Ah)
