

## six thirty

Ariana Grande

I know I be on some bullshit  
Know I be driving you crazy  
But I know you love how I whip it  
You can only stay mad for a minute  
So come here and give me some kisses  
You know I'm very delicious  
You know I'm very impatient  
Might change my mind, so don't keep me waiting

I just wonder, baby, if you're gonna stay  
Even if one day I lose it and go crazy  
I know this shit kinda heavy  
I just wanna tell you directly  
So boy, let me know if you ready

Are you down, what's up?  
Are you down, what's up?  
Are you down?  
Are you down, are you down?  
Are you down, are you down?

You know you be on some bullshit (Bullshit)  
Act so possessive and crazy (Crazy)  
But I know it's just 'cause you love me  
And you ain't scared to show me your ugly  
And maybe that's just how it's supposed to be  
I'm the release, you the dopamine

And you wonder, baby, if I'm gonna stay (Stay)  
Even if one day you lose it and go crazy  
I know this shit kinda heavy (Heavy)  
Just wanna ask you directly (Directly)  
Boy, let me know if you ready

Are you down, what's up? (What's up?)  
Are you down, what's up? (What's up?)  
Are you down?  
Are you down, are you down? (What's up, what's up?)  
Are you down, are you down? (Tell me, are you gonna be)

Six thirty, down like six thirty  
Down like sunsets  
Down like my head on your chest  
Down six thirty, down like six thirty  
Down like my foot on the gas  
Skrtrt skrrt, down like six thirty, yeah

Whatcha gonna do when I'm bored  
And I wanna play video games at 2am?  
What if I need a friend  
Will you ride 'til the end?  
Am I enough to keep your love?  
When I'm old and stuff  
Will you still have a crush?

Are you down, what's up?  
Are you down, what's up?

Are you down?  
Are you down, are you down?  
Are you down, are you down? (Tell me, are you gonna be)

Six thirty, down like six thirty  
Down like sunsets  
Down like my head on your chest  
Down six thirty, down like six thirty  
Down like my foot on the gas  
Skrrt skrrt, down like six thirty, yeah
