

Among Dreams

Ariel Pink

Among dreams, we're best friends
While in life we float apart
It bothers me that you won't admit you love me
Though it's precisely in your dream
I'm livin' to love you
Oh, to be wide awake beside you

Please don't hurt me
Please don't watch me
Please believe me
Please don't judge me
Please don't hate me
The misuse of your best
Ooooooooooooooooooooo

Among dreams, we talk of they
While in life they talk of me
To you I'm a pathetic face
but you know it's the truth
cos in your dream I've known you
forever
now it's not my dream to remember

Please don't touch me
Please don't want me
Please be near me
Please don't scare me
Please don't leave me

Among dreams, I dream to be
You would have loved to love me
You notice me but you won't admit you love me
Though it's precisely in your dreams
to love you
forever

no it's not my dream to remember
oh to be wide awake beside you
