

Farewell American Primitive

Ariel Pink

You won't believe this I sold your soul today
These hours between us will never fade away
As sad as it seems, it's like something in dreams
Fuck it, I'm hiding cause the winter makes me so sad
Bitter and cold my thoughts get sick and make me mad
Hello-hello Guantamamo bay, farewell so long goodbye USA

Farewell american primitive, native american immigrant
Larry Parker got me 2.1 million

I'm here in spirit, so don't hesitate to write
Bitter and cold now, my thoughts make me sick at night
But that isn't me, North Korea is me

Farewell american primitive, native american immigrant
Not my chair, not my problem

You won't believe this I sold your soul today
These hours between us will never fade away
As sad as it seems, it's like something in dreams

Farewell american immigrant, native american primitive
Farewell american primitive, native american immigrant
It's your money, use it when you need it
