

One of Us is Gonna Die Young

Ark

I wanna hold you but you're out of reach
Somewhere searching for your inner peace
Im just looking for a little squeeze
Face to face and cheek to cheek
Its in your blood but not in mine
What's in your blood is in my mind
Somethings broken in the way we smile
It is within us all the time
Youre well acquainted with the So- o- o-Ho
And all the Ello and Ow are u?
And we both have to get it on before the summers gone
We gotta hurry in our worry to get done today
Cause one of us is gonna die young
Lets put our money where our mouth is and get out today
Cause one of us is gonna die young
Ooh, Ooh, One of us is gonna die young
Ooh, Ooh, One of us is gonna die young
That's right
Aah, aah, aah, aah
And don't you take this the wrong way
Im not looking for a way to replace what love can give
Cause you can't do that!
Im only saying that where I come from
People find it very fashionable
To burn like a flame
Never get tame Grown-up and lame Yeah! Yeah!
Youre looking beat but you say: no, oh, no, no
Im all messed up and Im ready to go!
We aint gonna go it alone no more So lets get on
With the show
There's a lot to be said and to be done today
Cause one of us is gonna die young
Before they put us in a coffin Ive got things to say
One of us is gonna die young One of us is gonna die young
Ooh, Ooh, One of us is gonna die young
Ooh, Ooh, One of us is gonna die young
And there's a lot to be said and to be done today
Cause one of us is gonna die young
And you're chim-chim-chammy and
Your're wealthy and you're whammy
'Cus one of us is gonna die young
One of us is gonna die young
One of us is gonna die young
