

You Can Make Me Feel Bad

Arthur Russell

You can make me feel bad if you want to
I don't need those things you said
I was, I can live in my own
There's a place for us in the real world
You can make me feel bad if you want to

You can make me feel bad
I don't need those things you said
I want, I can live in my own
There's a place for us in the real world
You can make me feel bad if you want to
