

In These Streets

Ashanti

How could I ever wanna lose your love?
Why would I ever wanna lose your trust?
Cause there ain't nothin' in these streets for me
Oh, no baby, baby

I guess it's safe to say that you're my everything
Cause when you're gone away, I feel like everything
Is at the bottom of my list, and all I wanna do is taste your lips on my lips

And ain't no way I'm givin' this love to nobody else, cause they ain't worth it
And what we got ain't far from perfect, cause we got ours and they still searching for a babe

How could I ever wanna lose your love?
Why would I ever wanna lose your trust?
Cause there ain't nothin' in these streets for me
Oh, no baby, baby

How could I ever wanna lose your love?
Why would I ever wanna lose your trust?
Cause there ain't nothin' in these streets for me
Oh, no baby, baby

Now I can say it over and over again, I'm yours and I ain't goin' nowhere
And I know that ain't nobody out there better for me than you
Ain't no way I'm givin' this love to nobody else, cause they ain't worth it
What we got ain't far from perfect, cause we got ours and they still searching for a babe

How could I ever wanna lose your love?
Why would I ever wanna lose your trust?
Cause there ain't nothin' in these streets for me
Oh, no baby, baby

How could I ever wanna lose your love?
Why would I ever wanna lose your trust?
Cause there ain't nothin' in these streets for me
Oh, no baby, baby
